Background and Legislation

Background

Early childhood services are obligated by law, service agreements, and licensing requirements to comply with the privacy and health records legislation when collecting personal and health information about individuals.

The Health Records Act 2001 (Part 1, 7.1) and the Privacy and Data Protection Act 2014 (Vic) (Part 1, 6 (1)) include a clause that overrides the requirements of these Acts if they conflict with other Acts or Regulations already in place. For example, if there is a requirement under the Education and Care Services National Law Act 2010 or the Education and Care Services National Regulations 2011 that is inconsistent with the requirements of the privacy legislation, services are required to abide by the Education and Care Services National Law Act 2010 and the Education and Care Services National Regulations 2011.

In line with the Victorian Government's Roadmap for Reform, Education State reforms and broader child safety initiatives, Part 6A of the Child Wellbeing and Safety Act 2005 (the Act) was proclaimed in September 2018. The Act established the Child Information Sharing (CIS) Scheme, which enables sharing of confidential information between prescribed entities in a timely and effective manner to promote the wellbeing and safety of children. The Act also authorised the development of a web-based platform that will display factual information about children's participation in services known as the Child Link Register (to be rolled out in the early years sector from 2023/2024). The Child Link Register aims to improve child wellbeing and safety outcomes, monitor and support the participation in government-funded programs and services for children in Victoria.

Alongside the CIS Scheme, the Family Violence Protection Act 2008 includes the Family Violence Information Sharing (FVIS) Scheme and the Family Violence Multi-Agency Risk Assessment and Management (MARAM) Framework, which enables information to be shared between prescribed entities to assess and manage family violence risk to children and adults. The MARAM Framework can be used by all services including ECEC services that come into contact with individuals and parent/guardian experiencing family violence. The MARAM Framework aims to establish a system-wide shared understanding of family violence. It guides professionals across the continuum of service responses, across the range of presentations and spectrum of risk. It provides information and resources that professionals need to keep victim survivors safe, and to keep perpetrators in view and hold them accountable for their actions.

Definitions

The terms defined in this section relate specifically to this policy.

Child Information Sharing Scheme (CISS): enables Information Sharing Entities (ISE) (*refer to Definitions*) to share confidential information about any person to promote the wellbeing and/or safety of a child or group of children. The CISS works in conjunction with existing information sharing legislative provisions. All Victorian children from birth to 18 years of age are covered. Unborn children are only captured when there has been a report to Child First or Child Protection. Consent is not required from any person when sharing under CISS. The CISS does not affect reporting obligations created under other legislation, such as mandatory reporting obligations under the *Children, Youth and Parent/guardian Act 2005*.

Child Safe Standards: Promotes the safety of children, prevent child abuse, and ensure organisations have effective processes in place to respond to and report all allegations of child abuse.

Confidential information: For the purposes of this policy, the CISS and FVISS, the health information and identifiers for the *Health Records Act 2001* and the personal information for the *Privacy and Data Protection Act 2014*, including sensitive information (such as a criminal record), and unique identifiers.

Data breach: Unauthorised access or disclosure of personal information, or loss of personal information.

Discloser: In the context of the Schemes, this is defined as sharing confidential information for the purpose of promoting the wellbeing or safety of a child or group of children. In the context of family violence, this is defined as when someone tells another person about violence that they have experienced, perpetrated or witnessed.

Family Violence Information Sharing Scheme (FVISS): enables the sharing of relevant information between authorised organisations to assess or manage risk of family violence.

Freedom of Information Act 1982: Legislation regarding access and correction of information requests.

Health information: Any information or an opinion about the physical, mental, or psychological health or ability (at any time) of an individual.

Health Records Act 2001: State legislation that regulates the management and privacy of health information handled by public and private sector bodies in Victoria.

Identifier/Unique identifier: A symbol or code (usually a number) assigned by an organisation to an individual to distinctively identify that individual while reducing privacy concerns by avoiding the use of the person's name.

Information Sharing Entities (ISE): are authorised to share and request relevant information under the Child Information Sharing Scheme and the Family Violence Information Sharing Scheme (the Schemes) and required to respond to requests from other ISEs. All ISEs are mandated to respond to all requests for information.

Multi-Agency Risk Assessment and Management Framework (MARAM): Sets out the responsibilities of the organisation in identifying, assessing, and managing parent/guardian and guide information sharing under both CIS and FVIS schemes wherever family violence is present.

Notifiable Data Breaches scheme (NDB): a Commonwealth scheme that ensures any organisation or agency covered by the *Privacy Act 1988* notifies affected individuals and the Office of the Australian Information Commissioner (OAIC) when a data breach is likely to result in serious harm to an individual whose personal information is involved.

Personal information: Recorded information (including images) or opinion, whether true or not, about a living individual whose identity can reasonably be ascertained.

Privacy and Data Protection Act 2014: State legislation that provides for responsible collection and handling of personal information in the Victorian public sector, including some organisations, such as early childhood services contracted to provide services for government. It provides remedies for interferences with the information privacy of an individual and establishes the Commissioner for Privacy and Data Protection.

Privacy Act 1988: Commonwealth legislation that operates alongside state or territory Acts and makes provision for the collection, holding, use, correction, disclosure, or transfer of personal information. The *Privacy Amendment (Enhancing*

Privacy Protection) Act 2012 (Cth) introduced on 12 March 2014 has made extensive amendments to the *Privacy Act 1988*. Organisations with a turnover of \$3 million per annum or more must comply with these regulations.

Privacy breach: An act or practice that interferes with the privacy of an individual by being contrary to, or inconsistent with, one or more of the Information Privacy Principles (*refer to Attachment 2*) or the new Australian Privacy Principles (*refer to Attachment 7*) or any relevant code of practice.

Public Records Act 1973 (Vic): Legislation regarding the management of public sector documents.

Risk Assessment Entity (RAE): Under FVISS, there is also a subset of specialist ISEs known as Risk Assessment Entities that are able to receive and request information for a family violence assessment purpose. RAEs have specialised skills and authorisation to conduct family violence risk assessment, examples can include but not limited to Victorian Police, child protection, family violence service and some Orange Door services.

Sensitive information: Information or an opinion about an individual's racial or ethnic origin, political opinions, membership of a political association, religious beliefs or affiliations, philosophical beliefs, membership of a professional or trade association, membership of a trade union, sexual preference or practices, or criminal record. This is also considered to be personal information.
